Sanosil HaloMist™ Safety Data Sheet

Issuing Date 01-June-2015  Revision Date 16-June-2015

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

Product identifier
Product Name Sanosil HaloMist

Other means of identification
Synonyms None

Recommended use of the chemical and restrictions on use
Recommended Use Disinfectant (Aerosol) Surfaces
Uses advised against No information available

Details of the supplier of the safety data sheet
Supplier Name Sanosil International
Supplier Address 91 Lukens Drive
New Castle
DE
19720
US
Supplier Phone Number Phone:302-454-8102
Supplier Email sales@sanosilinternational.com
Emergency telephone number CHEMTREC US and Canada-1-800-434-9300, Outside US-1-703-527-3887
Company Emergency Phone Number 302-454-8102

2. HAZARDS IDENTIFICATION

Classification
Eye Irrit 2B H320
Eye irritation  

Category 2  Sub-category B  

GHS Label elements, including precautionary statements  

<table>

| Appearance | Colorless | Physical state | Liquid | Odor | Odorless |

Precautionary Statements – Prevention  

P-280 -Wear Protective gloves/protective clothing and eye/face protection and breathing protection.  
P305+ P351 + P338- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.  
P337+P313- If eye irritation persists: Get medical advice/attention.  

Eyes  

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing immediately call a POISON CENTER or doctor/physician  

Hazards not otherwise classified (HNOC)  

Not applicable  

Unknown Toxicity  

0% of the mixture consists of ingredient(s) of unknown toxicity
Other information

Interactions with Other Chemicals
No information available.

4. FIRST AID MEASURES

First aid measures

General Advice
Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show label where possible).

Eye contact
Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Keep eye wide open while rinsing. Do not rub affected area. Remove contact lenses, if present and easy to do. Continue rinsing. Seek immediate medical attention/advice.

Skin contact
Wash off immediately with plenty of water for 15 minutes while removing all contaminated clothes and shoes. Seek immediate medical attention/advice.

Inhalation
Remove to fresh air. If breathing has stopped, give artificial respiration. Get medical attention immediately. Do not use mouth-to-mouth method if victim ingested or inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. If breathing is difficult, (trained personnel should) give oxygen. Delayed pulmonary edema may occur. Get medical attention immediately if symptoms occur.

Ingestion
Do NOT induce vomiting. Rinse mouth immediately and drink plenty of water. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

Self-protection of the first aider
Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination. Avoid contact with skin, eyes or clothing. Avoid direct contact with skin. Use barrier to give mouth-to-mouth resuscitation. Use personal protective equipment as required. Wear personal protective clothing (see section 8).

Most important symptoms and effects, both acute and delayed
Symptoms/injuries after inhalation: May be irritating to the mucous membranes and to the respiratory system.
Symptoms/injuries after skin contact: Frequent or prolonged contact with skin may cause dermal irritation.
Symptoms/injuries after eye contact: Causes serious eye irritation.
Symptoms/injuries after ingestion: May cause burns or irritation of the linings of the mouth, throat and GI tract.

**Indication of any immediate medical attention and special treatment needed**

No additional information available

## 5. FIRE-FIGHTING MEASURES

**Suitable Extinguishing Media**
Flood with plenty of water. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

**Unsuitable extinguishing media**
CAUTION: Organic compounds. As hydrogen peroxide may react with a variety of organic materials and form explosive mixtures, shock sensitive compounds and initiate fire. Foam is not effective as oxygen and heat continue to be generated under the foam.

**Specific hazards arising from the chemical**
Hazardous decomposition products in case of fire: Thermal decomposition can lead to release of oxygen which may intensify fire. Containers may swell and burst during a fire due to internal pressure caused by heat.

**Advice for firefighters**
Firefighting instructions: Exercise caution when fighting any chemical fire.

**Protective equipment and precautions for firefighters**
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.
6. ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment and emergency procedures**

**General Measures:** Insure adequate ventilation. Do not breathe fumes, vapors. Avoid contact with skin, eyes and clothes.

**Non-emergency Personnel precautions:** Use personal protective equipment as required. Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.

**Other Information:** Refer to protective measures listed in Sections 7 and 8.

**Emergency responders**

Protective equipment: Equip cleanup crew with proper protection.

Emergency procedures: Stop leak if safe to do so. Evacuate unnecessary personnel. Ventilate area.

**Environmental precautions**

Refer to protective measures listed in Sections 7 and 8. Prevent further leakage or spillage if safe to do so. Prevent product from entering drains.

**Methods and material for containment and cleaning up**

**Methods for containment:** Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up:** Contain any spills with dikes. To prevent migration and entry into sewers or streams. Soak up with inert absorbent material. Do not absorb in sawdust, paper cloth or other combustible absorbents. Comply with applicable local, national and international regulation.

7. HANDLING AND STORAGE

**Precautions for safe handling**

**Handling:** Read label before use. Provide good ventilation in process area to prevent formation of vapor. Avoid all eye and skin contact and do not breathe vapor and mist. Keep away from incompatible materials. Wash hands and other exposed areas with mild soap before eating, drinking or smoking and when leaving work. Do not wear leather soled shoes.

Take care for general hygiene and housekeeping. Wash hands thoroughly after handling. Do not eat drink or smoke when using this product. Contaminated clothing should be washed thoroughly in order to eliminate a delayed potential fire hazard.

**Conditions for safe storage, including any incompatibilities**

**Incompatible Products:** Acids. Bases. Oxidizing agents.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION
Control parameters

Exposure Guidelines

<td>TWA: 1.4 mg/m³ (vacated) TWA: 1 ppm</td>
<td></td>
</tr>
</tbody>
</table>

ACGIH TLV: American Conference of Governmental Industrial Hygienists - Threshold Limit Value OSHA PEL: Occupational Safety and Health Administration - Permissible Exposure Limits Immediately Dangerous to Life or Health

Other Exposure Guidelines
Vacated limits revoked by the Court of Appeals decision in AFL-CIO v. OSHA, 965 F.2d 962 (11th Cir., 1992) See section 15 for national exposure control parameters

Appropriate engineering controls

Engineering Measures
Ensure adequate ventilation. Emergency eye wash fountains and safety showers should be in the immediate vicinity of any potential exposure. Avoid all unnecessary exposure. Personal protective equipment should be selected upon the conditions under which this product is handled or used.

Individual protection measures, such as personal protective equipment

Eye/face protection
Wear protective eyewear. Safety goggles and ½ face or full face respirator.

Skin and body protection
Wear protective gloves and protective clothing. Long sleeved clothing. Neoprene gloves.

Respiratory protection
Hydrogen Peroxide levels between 1 and 10 ppm requires at least half-face piece respirator (and appropriate eye protection) with either 3M 6003 or 6006 (organic vapor/acid gas or multi-gas) cartridge in combination with particulate filter (i.e. 5N11 or 5P71).*

(* 3M Technical Bulletin #185 and Solvay Chemicals Technical Communications TDS-No. HOOH-PAA-RESP.) If levels exceed 50 ppm, a full SCBA is necessary.

If exposure limits are exceeded or irritation is experienced, ventilation and evacuation may be required.

Hygiene Measures
Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes or clothing. Wear suitable gloves and eye/face protection. Do not eat, drink or smoke when using this product. Take off contaminated clothing and wash before reuse. Contaminated work clothing should not be allowed out of the workplace. Regular cleaning of equipment, work area and clothing is recommended. Wash hands before breaks and immediately after handling the product. For environmental protection, remove and wash all contaminated protective equipment before re-use.

### 10. STABILITY AND REACTIVITY

#### Reactivity

Thermal decomposition generates corrosive vapors.

#### Chemical stability

Stable under recommended storage conditions.

#### Possibility of Hazardous Reactions

None under normal processing.

#### Hazardous Polymerization

Hazardous polymerization does not occur.

#### Conditions to avoid

Exposure to extremely high or low temperatures

#### Incompatible materials

#### Hazardous Decomposition Products

Oxygen.

### 11. TOXICOLOGICAL INFORMATION

#### Information on likely routes of exposure

**Product Information**

- **Inhalation**
  
  May cause irritation of respiratory tract.
Eye contact  Moderate eye irritant. (based on product).

Skin contact  Slight irritant. (based on product).

Ingestion

Information on toxicological effects

Symptoms  May cause temporary skin whiteness. Coughing and/or wheezing. Eye irritation.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Sensitization  Guinea Pig, non-sensitizing (skin).

Mutagenic Effects  No information available.

Carcinogenicity  The table below indicates whether each agency has listed any ingredient as a carcinogen.

ACGIH (American Conference of Governmental Industrial Hygienists)
A3 - Animal Carcinogen
IARC (International Agency for Research on Cancer)
Group 3 - Not Classifiable as to Carcinogenicity in Humans

Reproductive toxicity  No information available.

STOT - single exposure  No information available.

STOT - repeated exposure  No information available.

Aspiration Hazard  No information available.

Numerical measures of toxicity Product Information

The following values are calculated based on chapter 3.1 of the GHS document

ATEmix (oral)  801.000 mg/kg bodyweight
ATEmix (dermal)  2000 mg/kg bodyweight
ATEmix (inhalation-gas)  4500.000 ppm V/4 h
ATEmix (inhalation-dust/mist)  2000 mg/l 4h
12. ECOLOGICAL INFORMATION

**Ecotoxicity**
Toxic to aquatic life.

**Persistence and Degradability**
No information available.

**Bioaccumulation**
Not established

**Other adverse effects**
No information available.

13. DISPOSAL CONSIDERATIONS

**Waste treatment methods**

**Disposal methods**
This material, as supplied, is not a hazardous waste according to Federal regulations (40 CFR 261). This material could become a hazardous waste if it is mixed with or otherwise comes in contact with a hazardous waste, if chemical additions are made to this material, or if the material is processed or otherwise altered. Consult 40 CFR 261 to determine whether the altered material is a hazardous waste. Consult the appropriate state, regional, or local regulations for additional requirements.

**Contaminated Packaging**
Dispose of contents/containers in accordance with local regulations.

This product contains one or more substances that are listed with the State of California as a hazardous waste.
